## BRINKER INTERNATIONAL REPORTS SECOND QUARTER OF FISCAL 2024 RESULTS; AND UPDATES FISCAL 2024 GUIDANCE

DALLAS (January 31, 2024) – Brinker International, Inc. (NYSE: EAT) today announced its financial results for the second quarter ended December 27, 2023.

### Second Quarter Fiscal 2024 Financial Highlights

Brinker International reported net income per diluted share of \$0.94, in the second quarter of fiscal 2024, a 51.6% increase compared to the second quarter of fiscal 2023. Net income per diluted share, excluding special items (non-GAAP), was \$0.99 in the second quarter of fiscal 2024, a 30.3% increase compared to the second quarter of fiscal 2023.

Our results for the second quarter of fiscal 2024 were primarily driven by effective marketing and pricing strategies. Guest traffic improved sequentially in the second quarter despite the headwind created by our decision to de-emphasize virtual brands. Comparable restaurant sales increased 5.2%, with an increase in comparable restaurant sales of 5.0% for Chili’s and 6.7% for Maggiano’s. The increase in Company sales resulted in operating income margin increasing to 5.8% and restaurant operating margin (non-GAAP) increasing to 13.1% for the second quarter.

“Our second quarter marked another quarter of year over year growth with continued margin improvement, driven by our strategy to simplify operations, improve our food, service, and atmosphere, and deploy an effective marketing plan,” said Kevin Hochman, Chief Executive Officer and President of Brinker International. “We’re pleased with our progress, which has allowed us to improve our traffic trends and now outpace the industry.”

### Updates to Full Year Fiscal 2024 Guidance

We are providing the following updates to our full year fiscal 2024 guidance:

- Net income per diluted share, excluding special items, non-GAAP, is expected to be in the range of \$3.45 - \$3.70; and
- Total revenues are expected to be in the range of \$4.30 billion - \$4.35 billion.

We are reiterating the following full year fiscal 2024 guidance:

- Weighted average shares are expected to be in the range of 45 million - 46 million; and
- Capital expenditures are expected to be in the range of \$175 million - \$195 million.

The potential for changes in macroeconomic conditions, among other risks, could cause actual results to differ materially from those projected. We are unable to reliably forecast special items without unreasonable effort. As such, we do not present a reconciliation of forecasted non-GAAP measures to the corresponding GAAP measures.

<sup>(2)</sup> See Non-GAAP Information and Reconciliations section below for more details.

#### Chili's

- Chili's Company sales increased primarily due to favorable comparable restaurant sales driven by increased menu pricing, partially offset by unfavorable menu item mix and lower traffic.
- Chili's Company restaurant expenses, as a percentage of Company sales, decreased primarily due to sales leverage, menu pricing, favorable commodity costs, and lower delivery fees & to-go supplies, partially offset by increased advertising, hourly labor, and other restaurant expenses.
- Chili's franchisees generated sales of approximately \$216.9 million for the second quarter of fiscal 2024 compared to \$213.4 million for the second quarter of fiscal 2023.

#### Maggiano's

- Maggiano's Company sales increased primarily due to favorable comparable restaurant sales driven by increased menu pricing and favorable menu item mix, partially offset by lower traffic.
- Maggiano's Company restaurant expenses, as a percentage of Company sales, decreased primarily due to sales leverage, menu pricing, and favorable commodity costs, partially offset by increased restaurant expenses and hourly labor.

### *Income Taxes*

- On a GAAP basis, the effective income tax rate was 8.1% in the second quarter of fiscal 2024. The effective income tax rate is lower than the statutory rate of 21% due primarily to leverage of the FICA tip credit. Excluding the impact of special items, the effective income tax rate was an expense of 9.1% in the second quarter of fiscal 2024.

Restaurant operating margin is not a measurement determined in accordance with GAAP and should not be considered in isolation, or as an alternative to operating income as an indicator of financial performance. Restaurant operating margin is widely regarded in the restaurant industry as a useful metric by which to evaluate restaurant-level operating efficiency and performance of ongoing restaurant-level operations. This non-GAAP measure is not indicative of overall Company performance and profitability because this measure does not directly accrue benefit to the shareholders due to the nature of costs excluded.

We define Restaurant operating margin as Company sales less Food and beverage costs, Restaurant labor and Restaurant expenses. We believe this metric provides a more useful comparison between periods and enables investors to focus on the performance of restaurant-level operations by excluding revenues not related to food and beverage sales at Company-owned restaurants, corporate General and administrative expenses, Depreciation and amortization, and Other (gains) and charges. Restaurant operating margin as presented may not be comparable to other similarly titled measures of other companies in our industry.

## Reconciliation of Adjusted EBITDA (in millions)

Adjusted EBITDA is not a measurement determined in accordance with GAAP and should not be considered in isolation, or as an alternative to net income as an indicator of financial performance. Brinker believes presenting Adjusted EBITDA provides a useful measure of our operating performance, excluding the impacts of financing costs, capital expenditures and special items. We define Adjusted EBITDA as Net income (loss) before Provision (benefit) for income taxes, Other income, net, Interest expenses, Depreciation and amortization and Other (gains) and charges.
