BRINKER INTERNATIONAL REPORTS FIRST QUARTER OF FISCAL 2024 RESULTS; AND UPDATES FISCAL 2024 GUIDANCE

DALLAS (November 1, 2023) – Brinker International, Inc. (NYSE: EAT) today announced its financial results for the first quarter ended September 27, 2023.

First Quarter Fiscal 2024 Financial Highlights

Brinker International reported net income per diluted share of \$0.16, in the first quarter of fiscal 2024, compared to a net loss per diluted share of \$0.69 in the first quarter of fiscal 2023. Net income per diluted share, excluding special items (non-GAAP), was \$0.28 in the first quarter of fiscal 2024, compared to a net loss per diluted share, excluding special items (non-GAAP), of \$0.57 in the first quarter of fiscal 2023.

Our results for the first quarter of fiscal 2024 were primarily driven by an increase in Company sales and favorable food and beverage costs as a percentage of Company sales. Comparable restaurant sales increased 5.8%, with an increase in comparable restaurant sales of 6.1% for Chili's and 2.6% for Maggiano's. Comparable restaurant sales improved primarily due to increased menu pricing and favorable item mix. A strategic decision to de-emphasize our virtual brands: It's Just Wings® and Maggiano's Italian Classics®, contributed approximately 4.0% of an overall 5.8% traffic decline. Operating income margin increased to 2.4% and restaurant operating margin (non-GAAP) increased to 10.4% for the first quarter.

“The first quarter results are a great start to the fiscal year and indicate our strategy is working and building momentum,” said Kevin Hochman, Chief Executive Officer and President of Brinker International, Inc. “Our investments in guest and team member experiences are paying off, and I am confident we are rebuilding the business in a way that will deliver sustainable top and bottom-line growth over the long term.”

Maggiano's	2.6 %

(1) See Non-GAAP Information and Reconciliations section below for more details.

(2) Comparable Restaurant Sales include restaurants that have been in operation for more than 18 full months. Restaurants temporarily closed for 14 days or more are excluded from comparable restaurant sales. Percentage amounts are calculated based on the comparable periods year-over-year.

Update to Full Year Fiscal 2024 Guidance

We are providing the following update to our full year fiscal 2024 guidance:

- Net income per diluted share, excluding special items, non-GAAP, is expected to be in the range of \$3.35 - \$3.65.

We are reiterating the following full year fiscal 2024 guidance:

- Total revenues are expected to be in the range of \$4.27 billion - \$4.35 billion;
- Weighted average shares are expected to be in the range of 45 million - 46 million; and
- Capital expenditures are expected to be in the range of \$175 million - \$195 million.

The potential for changes in macroeconomic conditions, among other risks, could cause actual results to differ materially from those projected. We are unable to reliably forecast special items without unreasonable effort. As such, we do not present a reconciliation of forecasted non-GAAP measures to the corresponding GAAP measures.

First Quarter of Fiscal 2024 Operating Performance

Segment Performance

The table below presents selected financial information (in millions, except as noted) related to our segments' operational performance for the thirteen week periods ended September 27, 2023 and September 28, 2022:

	Chili's			Maggiano's		
	First Quarter		Variance	First Quarter		Variance
	2024	2023		2024	2023

Restaurant operating margin as a % of Company sales, non-GAAP ⁽²⁾	10.6 %	5.8 %	4.8 %	8.8 %	8.5 %	0.3 %

⁽¹⁾ Company restaurant expenses includes Food and beverage costs, Restaurant labor and Restaurant expenses, and excludes Depreciation and amortization, General and administrative and Other (gains) and charges.

⁽²⁾ See Non-GAAP Information and Reconciliations section below for more details.

Chili's

- Chili's Company sales increased primarily due to increased menu pricing and favorable menu item mix, partially offset by lower traffic.
- Chili's Company restaurant expenses, as a percentage of Company sales, decreased primarily due to sales leverage and menu pricing, favorable menu item mix and commodity costs, as well as lower delivery fees & to-go supplies, partially offset by increased advertising, hourly labor, and other restaurant expenses.
- Chili's franchisees generated sales of approximately \$202.8 million for the first quarter of fiscal 2024 compared to \$203.3 million for the first quarter of fiscal 2023.

Maggiano's

- Maggiano's Company sales decreased slightly primarily due to restaurant closures, partially offset by favorable comparable restaurant sales driven by increased menu pricing.
- Maggiano's Company restaurant expenses, as a percentage of Company sales, decreased slightly primarily due to menu pricing and favorable commodity costs, partially offset by increased hourly labor and other restaurant expenses.

Income Taxes

- On a GAAP basis, the effective income tax rate was 0.0% in the first quarter of fiscal 2024. The effective income tax rate is lower than the statutory rate of 21% due primarily to leverage of the FICA tip credit. Excluding the impact of special items, the effective income tax rate was an expense of 6.7% in the first quarter of fiscal 2024.

Non-GAAP Measures

Brinker management uses certain non-GAAP measures in analyzing operating performance and believes that the presentation of these measures in this release provides investors with information that is beneficial to gaining an understanding of the Company's financial results. Non-GAAP disclosures should not be viewed as a substitute for financial results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance measures that may be presented by other companies. Reconciliations of these non-GAAP measures are included in the tables below.

About Brinker

(1) Comparable Restaurant Sales include all restaurants that have been in operation for more than 18 full months. Restaurants temporarily closed 14 days or more are excluded from Comparable Restaurant Sales. Percentage amounts are calculated based on the comparable periods year-over-year.

(2) Mix-Shift is calculated as the year-over-year percentage change in Company sales resulting from the change in menu items ordered by guests.

(3) Chili's and Maggiano's franchise sales generated by franchisees are not included in Total revenues in the Consolidated Statements of Comprehensive Income (Loss) (Unaudited); however, we generate royalty revenues and advertising fees based on franchisee revenues, where applicable. We believe presenting Franchise Comparable Restaurant Sales provides investors relevant information regarding total brand performance.

(4) Chili's domestic Comparable Restaurant Sales percentages are derived from sales generated by Company-owned and franchise-operated Chili's restaurants in the United States.

- (5) System-wide Comparable Restaurant Sales are derived from sales generated by Chili's and Maggiano's Company-owned and franchise-operated restaurants.

Reconciliation of Net Income (Loss) Excluding Special Items (in millions, except per share amounts)

Brinker believes excluding special items from its financial results provides investors with a clearer perspective of the Company's ongoing operating performance and a more relevant comparison to prior period results.

Restaurant operating margin as a % of Company sales, non-GAAP	10.6 %	5.8 %	8.8 %	8.5 %	10.4 %	6.0 %

Restaurant operating margin is not a measurement determined in accordance with GAAP and should not be considered in isolation, or as an alternative to operating income as an indicator of financial performance. Restaurant operating margin is widely regarded in the restaurant industry as a useful metric by which to evaluate restaurant-level operating efficiency and performance of ongoing restaurant-level operations. This non-GAAP measure is not indicative of overall Company performance and profitability because this measure does not directly accrue benefit to the shareholders due to the nature of costs excluded.

We define Restaurant operating margin as Company sales less Food and beverage costs, Restaurant labor and Restaurant expenses. We believe this metric provides a more useful comparison between periods and enables investors to focus on the performance of restaurant-level operations by excluding revenues not related to food and beverage sales at Company-owned restaurants, corporate General and administrative expenses, Depreciation and

amortization, and Other (gains) and charges. Restaurant operating margin as presented may not be comparable to other similarly titled measures of other companies in our industry.

Reconciliation of Adjusted EBITDA (in millions)

Adjusted EBITDA is not a measurement determined in accordance with GAAP and should not be considered in isolation, or as an alternative to net income as an indicator of financial performance. Brinker believes presenting Adjusted EBITDA provides a useful measure of our operating performance, excluding the impacts of financing costs, capital expenditures and special items. We define Adjusted EBITDA as Net income (loss) before Provision (benefit) for income taxes, Other income, net, Interest expenses, Depreciation and amortization and Other (gains) and charges.
