## QUARTERLY OPERATING PERFORMANCE

### Company Sales and Company Restaurant Expenses

Chili's Company sales in the second quarter of fiscal 2020 increased 13.7% to \$728.4 million from \$640.6 million in the second quarter of fiscal 2019 primarily due to revenues generated from the 116 Chili's restaurants acquired in the first quarter of fiscal 2020, and a 2.0% increase in comparable restaurant sales.

As compared to the second quarter of fiscal 2019, Chili's restaurant operating margin<sup>(1)</sup> increased. Restaurant expenses, as a percentage of Company sales, decreased compared to the second quarter of fiscal 2019 primarily due to sales leverage, partially offset by expenses related to growth in off-premise. Cost of sales, as a percentage of Company sales, decreased compared to the second quarter of fiscal 2019 primarily due to increased menu pricing, partially offset by unfavorable commodity pricing and menu item mix. Restaurant labor, as a percentage of Company sales, increased compared to the second quarter of fiscal 2019 due to higher hourly labor wage rates, partially offset by sales leverage.

Maggiano's Company sales in the second quarter of fiscal 2020 decreased to \$119.1 million from \$120.9 million in the second quarter of fiscal 2019 primarily due to a 1.4% decrease in comparable restaurant sales that included 0.5% of negative weather impact. As compared to the second quarter of fiscal 2019, Maggiano's restaurant operating margin<sup>(1)</sup> decreased. Restaurant labor, as a percentage of Company sales, increased primarily due to higher hourly labor wage rates. Restaurant expenses and Cost of sales, as a percentage of Company sales, were both flat compared to the second quarter of fiscal 2019.

<sup>(1)</sup> Restaurant operating margin is defined as Company sales less Cost of sales, Restaurant labor and Restaurant expenses and excludes Depreciation and amortization expenses (see non-GAAP reconciliation below).

### Franchise and Other Revenues

Franchise and other revenues in the second quarter of fiscal 2020 decreased 25.3% to \$21.8 million from \$29.2 million in the second quarter of fiscal 2019 primarily due to a decrease in royalties and franchise marketing contributions related to the 116 Chili's restaurants acquired from a franchisee during the first quarter of fiscal 2020. In the second quarter of fiscal 2020, Brinker franchisees generated approximately \$247.4 million in sales.<sup>(2)</sup>

<sup>(2)</sup> Royalty revenues are recognized based on the sales generated and reported to the Company by franchisees.

### Income Taxes

On a GAAP basis, the effective income tax rate in the second quarter of fiscal 2020 decreased to 3.8% compared to 8.6% in the second quarter of fiscal 2019. The decrease was primarily driven by the impact of additional expense related to special items during the second quarter of fiscal 2020. Excluding the impact of special items (see non-GAAP reconciliation below for details), the effective income rate increased to 10.5% in the second quarter of fiscal 2020 compared to 10.2% in the second quarter of fiscal 2019.

### Fiscal 2020 Outlook and Guidance Policy

Brinker now increases our financial outlook with the following guidance changes based on year-to-date performance and estimates for the remainder of fiscal 2020:

- Earnings per diluted share, excluding special items, is estimated to be in the range of \$4.25 to \$4.45
- Restaurant operating margin is expected to be flat to fiscal 2019
- Free cash flow is expected to be \$175.0 million to \$190.0 million

We reaffirm the other aspects of our full-year fiscal 2020 financial guidance as previously communicated in our August 13, 2019 earnings release and provided below for reference.

- Revenues are expected to be up approximately 9.0% to 10.0% primarily due to the acquisition of the 116 Chili's restaurants

- Comparable restaurant sales at company-owned restaurants are expected to be up 1.75% to 2.50%
- Capital expenditures are expected to be \$140.0 million to \$150.0 million
- General and administrative expense is expected to remain flat
- Effective income tax rate, excluding the impact of special items, is expected to be approximately 10.5% to 11.5%

We are unable to reliably forecast special items such as restaurant impairments, restaurant closures, reorganization charges and legal settlements without unreasonable effort. As such, we do not present a reconciliation of forecasted non-GAAP measures to the corresponding GAAP measures. If special items are reported during fiscal 2020, reconciliations to the appropriate GAAP measures will be provided.

## COMPARABLE RESTAURANT SALES

The table below presents the percentage change in company-owned and franchise comparable restaurant sales in the quarter comparative periods as described below:

	Comparable Restaurant Sales <sup>(1)</sup>		Price Impact		Mix-Shift <sup>(2)</sup>		Traffic	
	Q2: 20 vs 19	Q2: 19 vs 18	Q2: 20 vs 19	Q2: 19 vs 18	Q2: 20 vs 19	Q2: 19 vs 18	Q2: 20 vs 19	Q2: 19 vs 18
Company-owned	1.5 %	2.7 %	1.4%	1.0%	0.3%	(1.1)%	(0.2)%	2.8%
Chili's	2.0 %	2.9 %	1.4%	0.9%	0.5%	(0.9)%	0.1 %	2.9%
Maggiano's	(1.4)%	1.8 %	1.4%	1.2%	0.0%	(0.7)%	(2.8)%	1.3%
Chili's franchise <sup>(3)</sup>	(0.4)%	(0.8)%						
U.S.	0.2 %	3.4 %						
International	(0.9)%	(6.5)%						
Chili's domestic <sup>(4)</sup>	1.7 %	3.0 %						
System-wide <sup>(5)</sup>	1.0 %	1.8 %						

<sup>(1)</sup> Comparable Restaurant Sales include all restaurants that have been in operation for more than 18 months, except restaurants acquired by the Company from franchisees are not included until they have been Company-owned for more than 12 months. Amounts are calculated based on comparable current period versus same period a year ago.

<sup>(2)</sup> Mix-Shift is calculated as the year-over-year percentage change in Company sales resulting from the change in menu items ordered by guests.

<sup>(3)</sup> Chili's Franchise sales generated by franchisees are not included in revenues in the Consolidated Statements of Comprehensive Income; however, we generate royalty revenues and advertising fees based on franchisee revenues, where applicable. We believe including franchise comparable restaurant sales provides investors information regarding brand performance that is relevant to current operations.

<sup>(4)</sup> Chili's Domestic Comparable Restaurant Sales percentages are derived from sales generated by Company-owned and franchise-operated Chili's restaurants in the United States.

<sup>(5)</sup> System-wide Comparable Restaurant Sales are derived from sales generated by Company-owned Chili's and Maggiano's restaurants in addition to the sales generated at franchise-operated Chili's restaurants.

## NON-GAAP MEASURES

Brinker management uses certain non-GAAP measures in analyzing operating performance and believes that the presentation of these measures in this release provides investors with information that is beneficial to gaining an understanding of the Company's financial results. Non-GAAP disclosures should not be viewed as a substitute for financial results determined in accordance with GAAP, nor are they necessarily comparable to non-GAAP performance

measures that may be presented by other companies. Reconciliations of these non-GAAP measures are included in the tables below.

### Reconciliation of Net Income and Net Income Per Share Excluding Special Items

Brinker believes excluding special items from its financial results provides investors with a clearer perspective of the Company's ongoing operating performance and a more relevant comparison to prior period results. The following reconciliation is presented in millions, except per diluted share amounts.

	Q2 20	EPS Q2 20	Q2 19	EPS Q2 19
Net income	\$ 27.9	\$ 0.73	\$ 32.0	\$ 0.83
Special items <sup>(1)</sup>	13.8	0.36	3.2	0.08
Income tax effect related to special items <sup>(2)</sup>	(3.3)	(0.08)	(0.8)	(0.02)
Special items, net of taxes	10.5	0.28	2.4	0.06
Adjustment for special tax items <sup>(3)</sup>	0.0	0.0	(0.1)	0.0
Net income excluding special items	<u>\$ 38.4</u>	<u>\$ 1.01</u>	<u>\$ 34.3</u>	<u>\$ 0.89</u>

<sup>(1)</sup> Special items in the second quarter of fiscal 2020 consist of \$12.3 million in Other (gains) and charges and \$1.5 million of incremental depreciation expenses associated with a change in estimated useful life of certain restaurant-level long-lived assets.

Special items in the second quarter of fiscal 2019 consist of charges of \$2.2 million in Other (gains) and charges and \$1.0 million of incremental depreciation expense associated with a change in estimated useful life of certain restaurant-level long-lived assets.

Footnote "(2)" to the Consolidated Statements of Comprehensive Income contains additional details on the composition of Other (gains) and charges for each period presented.

<sup>(2)</sup> Income tax effect related to special items is based on the statutory tax rate in effect at the end of each period presented.

<sup>(3)</sup> Adjustment for special tax items in the second quarter of fiscal 2020 was negligible. Adjustment for special tax items in the second quarter of fiscal 2019 are primarily related to the tax impact of excess tax windfalls associated with stock-based compensation.

### Reconciliation of Restaurant Operating Margin

Restaurant operating margin is not a measurement determined in accordance with GAAP and should not be considered in isolation, or as an alternative to operating income as an indicator of financial performance. Restaurant operating margin is widely regarded in the restaurant industry as a useful metric by which to evaluate restaurant-level operating efficiency and performance of ongoing restaurant-level operations. This non-GAAP measure is not indicative of overall company performance and profitability because this measure does not directly accrue benefit to the shareholders due to the nature of costs excluded. We define Restaurant operating margin as Company sales less Company restaurant expenses, including Cost of sales, Restaurant labor and Restaurant expenses. We believe this metric provides a more useful comparison between periods and enables investors to focus on the performance of restaurant-level operations by excluding revenues not related to food and beverage sales at company-owned restaurants, corporate General and administrative expenses, Depreciation and amortization, and Other (gains) and charges.

Restaurant operating margin excludes Franchise and other revenues which are earned primarily from franchise royalties, advertising fees, and other non-food and beverage revenues streams such as banquet service charges, digital entertainment revenues and gift card breakage. Depreciation and amortization expenses, substantially all of which are related to restaurant-level assets, are excluded because such expenses represent historical costs which do not reflect current cash outlays for the restaurants. General and administrative expenses include primarily non-restaurant-level costs associated with support of the restaurants and other activities at our corporate offices and are therefore excluded. We believe that excluding special items, included within Other (gains) and charges, from Restaurant operating margin

provides investors with a clearer perspective of the Company's ongoing operating performance and a more useful comparison to prior period results. Restaurant operating margin as presented may not be comparable to other similarly titled measures of other companies in our industry.

The following reconciliation is presented in millions, except percentages:

	Q2 20	Q2 19
Operating income - GAAP	\$ 43.5	\$ 49.6
Operating income as a percentage of Total revenues	5.0%	6.3%
Operating income - GAAP	\$ 43.5	\$ 49.6
Less: Franchise and other revenues	(21.8)	(29.2)
Plus: Depreciation and amortization	39.3	36.1
General and administrative	34.6	35.4
Other (gains) and charges	12.3	2.2
Restaurant operating margin - non-GAAP	\$ 107.9	\$ 94.1
Restaurant operating margin as a percentage of Company sales	12.7%	12.4%

### Reconciliation of Free Cash Flow

Brinker believes presenting free cash flow provides a useful measure to evaluate the cash flow available for reinvestment after considering the capital requirements and expenditures of our business operations (in millions).

	Twenty-Six Week Period Ended December 25, 2019
Cash flows provided by operating activities - GAAP	\$ 142.3
Capital expenditures	(51.4)
Free cash flow - non-GAAP	\$ 90.9
